Get to the bottom of your
dog's gut problem with an
endoscopy capsule

INSIGHT FROM THE INSIDE OUT

Four on-board cameras capture a 360-degree, high-resolution view of the GI tract

Independently controlled LEDs provide optimal illumination

No harm to your dog

No anaesthesia

Capsule is given like a pill

360° high definition images

Detailed medical report

WHY IMAGE? 'ASK YOUR VET

Managing dogs with chronic vomiting and/or diarrhoea is often frustrating. How do you know for sure if your dog is bleeding internally? Only Alicam can capture these images to accurately diagnose the problem.

Dilated Lacteals

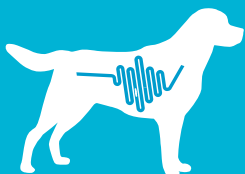

Gastric Haemorrhage

Intestinal Erosions

- No sedation, anaesthesia or restriction of movement
- Quick and easy to administer
- Interpretation and treatment recommendations provided by board certified internal medicine specialists
